

EIIP Project Outline

Sponsoring Committee: Point Sources Committee

Project Title: *How to Incorporate the Effects of Air Pollution Control Device Efficiencies and Malfunctions into Emission Inventory Estimates*

Contractor Support Funds: \$40,000

Description of Activities: The document will be guidance to assist inventory preparers in assessing the performance of control devices. It will be assembled using existing EPA documents with information on control device efficiencies for criteria pollutants.

Deliverables: Finished document will be Chapter 12 of Volume II for Point Sources.

Significant Dates (Start, End, Milestones): Start: Dec 1998, Document completed: May 2000

Contact for Additional Information: Bob Betterton, SC (803 898-4292), or Roy Huntley, EPA (919 541-1060)
